Mike,

Please find attached the draft briefing paper for the subject project.

Also, I have attached the agency's detailed comment letter.

## REGION 6 EXECUTIVE SUMMARY

TOPIC: Harbor Bridge Project, Corpus Christi, Texas  
Draft Environmental Impact Statement  
National Environmental Policy Act (NEPA)

DATE: June 3, 2014

### BACKGROUND:

FHWA and TXDOT propose to improve U.S. 181, Interstate Highway 37, and the Crosstown Expressway in the City of Corpus Christi, Nueces County, Texas. The project will extend from US 181 at Beach Avenue to SH 296 at Morgan Avenue. The proposed project length is approximately 3.0 to 4.8 miles depending on the proposed alternatives. The proposed improvements will address the structural deficiencies and navigational restrictions and improve safety, connectivity, and level of service in the area.

### CURRENT STATUS:

On March 18, 2014, Region 6 issued a detailed comment letter regarding the Harbor Bridge Draft Environmental Impact Statement (DEIS). The DEIS was rated as EC-2 based on environmental concerns and requests for additional information regarding environmental justice and impacted communities, solid and hazardous waste, mitigation of adverse effects, threatened and endangered species, coordination and consultation with Indian Tribes, children's health, and water resources.

A meeting was held with FHWA to discuss OEJTA's comment and recommendation regarding indirect air and noise impacts to Northside and Refinery Row Communities. (See Detailed Comment Letter) The primary focus of the meeting was to discuss the legal and policy perspectives of the foreseeable impacts from raising the existing bridge height in relationship to the adjacent environmental justice community in the Corpus Christi, Texas area. Agency personnel from Air, OEJTA, NEPA, and OGC regional and headquarter offices participated in the meeting.

Based on recent discussions, FHWA and TXDOT are working on responses to the comments received on the DEIS and have not been finalized. Presently, the FEIS is scheduled to be filed in later 2014.

### NEXT STEPS:

FHWA and TXDOT will file a Final Environmental Impact Statement after reviewing and addressing comments from EPA, other federal agencies, and the public.

Hello Kimeka,

Based on our conversation, I reached out to FHWA and it looks like September 11<sup>th</sup> from 10:00 am to 12:00 p.m. would work for FHWA/TxDOT staff. Please let me know if this date and time works for EPA.

Hello Kimeka,

I am sorry I missed your call today. I spoke with FHWA yesterday and they asked me if September 3<sup>rd</sup> would work for TxDOT to get together with FHWA and EPA to review the response to comments. I think Greg Punske spoke to Craig Weeks on Monday and Craig indicated next week would be better. Would September 3<sup>rd</sup> at 1:30 p.m. work for folks at EPA to review comments with FHWA/TxDOT? I will try and call and talk to you in the morning. Take care.

Good morning Kimeka,

I am sorry we missed each other last week. As indicated in my voice message TxDOT and FHWA was trying to set up a time this week to go over the responses to EPA's comments on the DEIS. We were thinking Thursday August 28<sup>th</sup> at 1:30 p.m. if that worked with everyone from EPA who would be participating. If this does not work please let me know when would be a good time for you all. Thank you for setting this up. Have a great week.

Sincerely,

Texas Department of Transportation

Notice of Availability: Record of Decision (ROD) United States Highway (US) 181 Harbor Bridge Project in Nueces County, Texas

Pursuant to Texas Administrative Code, Title 43, §2.108, the Texas Department of Transportation (TxDOT) is advising the public of the availability of the ROD for the proposed construction of the US 181 Harbor Bridge Project improvements in Nueces County, Texas. The project limits include: US 181 at Beach Avenue on the north; Crosstown Expressway at Morgan Avenue on the south; I-37 and Up River Road on the west; and I-37 and Shoreline Boulevard on the east.

The project would replace the existing Harbor Bridge and reconstruct portions of US 181, I-37 and the Crosstown Expressway. The improvements would consist of constructing a six-lane controlled-access facility within a right-of-way width that varies between 200-430 feet, three lanes in each direction with a median barrier, shoulders and a bicycle and pedestrian shared-use path on the main span of the bridge and approaches.

The ROD identifies the Recommended Alternative as the selected alternative for construction of the US 181 Harbor Bridge Project. It presents the basis for the decision, summarizes the mitigation measures that will be incorporated into the project, and summarizes the responses to comments received on the FEIS. It also describes the Voluntary Resolution Agreement between the Federal Highway Administration and TxDOT that is the response to a complaint filed under Title VI of the Civil Rights Act of 1964 concerning the project.

A digital version of the ROD may be downloaded from the project website at [ccharborbridgeproject.com](http://ccharborbridgeproject.com). Paper copies of the ROD and other information about the project may be requested from TxDOT Corpus Christi District Office, 1701 S. Padre Island Drive, TX 78416 or from TxDOT Environmental Affairs Division, 118 E. Riverside Drive, Austin, TX 78704. Paper copies may be obtained at the requester's expense. Submit requests in writing to Christopher Amy, TxDOT Corpus Christi District Office, 1701 S. Padre Island Drive, TX 78416, [christopher.amy@txdot.gov](mailto:christopher.amy@txdot.gov), (361) 808-2376.

Craig,

Please review and approve the following summary this week CAED War Report:

**Harbor Bridge Project in Corpus Christi, Texas**

On October 22, 2014, various EPA regional and headquarter offices met with Federal Highway Administration, Texas Department of Transportation, and U.S. Department of Housing and Urban Development. The state and federal agencies discussed the draft Sustainability Plan Framework for the environmental justice communities in the proposed Harbor Bridge project area, and upcoming collaborative TXDOT, EPA, FHWA, and HUD meeting with the environmental justice communities. The draft Sustainability Plan Framework is a component of the proposed Environmental Justice Plan and mitigation measures for the proposed project under the National Environmental Policy Act. TXDOT and FHWA plan to issue the Final Environmental Impact Statement in early 2015. Contact: Kimeka Price, 214-665-7438.

Hello Kimeka:

I didn't receive any comments on the revised agenda I sent this morning. Therefore, I am resending the agenda as final and including the summary of Public Involvement for distribution to the other EPA Staff as appropriate.

We are updating our draft response to EPA's comments and I will forward them to you with the draft mitigation plan as soon as we complete our update.

Thanks

greg

Hello Kimeka,

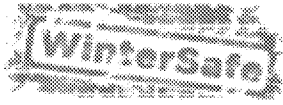

Would it be possible to have the meeting on Thursday at 1:00 p.m. Central time (2:00 Eastern)? I have a conflict during my lunch hour and will not be able to make the entire call that day. Thank you for your consideration.
